

MAKE A COACH RECOMMENDATION

As a coach, you can recommend a skill from any mission to a student or group. Once they practice it, it will be prioritized in mastery challenges for that mission.

Deleting a coach recommendation

- ❑ After following the instructions on the previous page, click the small X next to any recommendation to delete it.

Students can also delete recommendations you've given them. In this case, you'll see a notification on the Student Progress report.

The screenshot shows a navigation bar with the following items: Skills, Recommendations (highlighted with a mouse cursor), Videos, Badges, Activity, and Focus. Below the navigation bar, there are two notification boxes. The first box is light red and contains the text "Isaac at KA has declined these recommendations:" followed by two blue links: "Dismiss all" and "Recommend again". The second box is light grey and contains the text "Evaluating expressions in 2 variables" followed by two blue links: "Dismiss" and "Recommend again".

If you want to delete the same recommendation for several students, it may be easier to ask your students to remove the recommendation themselves.
